Dear Doctors.

Texila American University (TAU) brings you a fantastic opportunity to train for internationally recognized PG- MEDICAL and DENTAL programs at affordable costs.

About Texila American University

Texila American University (TAU) is located in Guyana, the only English-speaking country in South America. TAU offers Health Science programs with a high level of professionalism, exactness and problem solving skills, upon which the foundations of specialist training and an independent medical practice can be built, which facilitates further education and development of their knowledge throughout their life.

The curriculum at the TAU is structured after the best US and Caribbean medical schools. The academic program is both accelerated and rigorous, with a focus on preparing students for licensure in the United States, Caribbean and India. The Program curriculums are designed to reinforce the enduring tenets of the practice of medicine and ensure the ability of understanding and handling the changing demands of health service in the various fields of society. Students at TAU are presented with, and challenged to adopt, the ethics and values that apply to all health Professions. Putting the patient first, improving the lives of the underserved, emphasizing health care for rural populations, celebrating diversity wherever we find it and developing cultural competency are all essential to the daily practice of health professionals.

In clerkships students acquire in-depth clinical experiences to sharpen their communication and health care problem-solving abilities. Students are advised to participate in an outreach & volunteer programs where they receive practical training in delivering health care services. Among the medical programs offered by the Caribbean medical schools, TAU has its unique Doctor of Medicine Program with exposure to clinical facilities right from the first year of medical education.

In India we are offering our Post Graduate Program examinations that are going in Medical Specialties, Surgical specialties and Dental Specialties. Texila American University shall validate and award three kind of postgraduate (PG) medical and dental degrees in the Indian Scenario.

1. M.D. Degree (Doctor of Medicine- Residency),
2. M.S. Degree (Master of Surgery).
3. MDS Degree (Master in Dental Surgery)
Salient Features:

1. Student can do this in TAU approved hospitals in India and Abroad
2. Shall be doing under the guidance of Hospital Consultant
3. High quality training offered online and off line

Many more...
